

Rony Bubnovsky

Full Stack Developer | Software Engineer

 rony.bubnovsky@gmail.com |  050-8465858 |  [LinkedIn](#) |  [GitHub](#) |  [Portfolio](#)

Professional Summary

Full Stack Developer with professional experience designing and delivering secure, scalable web applications. Proficient in **JavaScript, TypeScript, React, Next.js, Node.js, MongoDB** and **PostgreSQL** with expertise in **REST APIs, authentication, Docker, and CI/CD pipelines**.

B.Sc. Software Engineering, GPA 92 (2025).

Experience

Software Engineer and Full Stack Developer | Nexus Payments (April 2026 – Present)

- Leading **full product rebuild** from legacy Wix (~80,000 users) to a production-grade **React** and **TypeScript** web application as sole engineer
- Managing end-to-end **SDLC** including **Node.js REST APIs, PostgreSQL** and **MongoDB** with **Prisma, authentication, and Docker** deployment
- Building **RBAC, digital wallets**, and a **loyalty program** as core backend features
- Integrating third-party **payment processing** and SMS verification services
- Leverage advanced AI development tools** to accelerate feature delivery, automate routine coding tasks, and maintain high code quality as a one-person team.
- Translating product specs into **Agile tasks** and managing own **sprint workflow**

Highlighted Projects

Career Agent - AI-Powered Job Search Platform (October 2024 – July 2025) [Repo](#)

- Developed a full-stack job search platform with **React, Node.js (Express), and Tailwind CSS**, featuring a **weighted job-matching algorithm** and secure **Cloudinary** storage. Integrated AI (**Google Generative API**), deployed on a **remote Linux server** with CI/CD (GitHub Actions), tested with **Cypress**, and built in an **Agile team**, highlighting strong **teamwork** and **problem-solving** skills.

CrowdCapture - Real-Time Event Album Platform (May 2025 - Present) [Live Demo](#)

- Built a full-stack event-album platform with **TypeScript React** and **Node.js (Express)**, featuring secure media storage on **AWS S3** and asynchronous workflows via **SQS-triggered Lambda functions**. Containerized with **Docker**, orchestrated by **docker-compose**, deployed on **AWS Lightsail** and developed with Agile practices - highlighting cloud-architecture skills.

Next.js Chess App - Full-Stack Chess with AI & Real-Time Gameplay (March 2025) [Repo](#)

- Developed a full-stack chess app using **Next.js, TypeScript, and Tailwind CSS** with **real-time gameplay**, AI opponent (**minimax with alpha-beta pruning**), secure **Clerk authentication**, **Redis-backed** stats and leaderboard, and 24/7 deployment on **Render**.

Education

B.Sc. in Software Engineering | SCE Academic College of Engineering | October 2021 – July 2025

GPA: 92

Technical Skills

React, Next.js, Node.js, Express.js, Flask, REST APIs, HTML, CSS, TailwindCSS | MongoDB, PostgreSQL, Redis | Python, Java, C++, C, JavaScript, TypeScript | Claude API, OpenAI Codex, LLM Integration, Prompt Engineering, Context Engineering | Docker, Firebase, AWS, Vercel, Render, GitHub Actions, CI/CD | Git, Jira, Postman, Cypress, Jest, Pytest | Agile, TDD, Microservices, OOP, Design Patterns, Algorithms, Data Structures

Languages **Hebrew** - Native

English - Full Professional Proficiency

Russian - Advanced
